501A
EGG BREAKER & SEPARATOR

Features

- Made of stainless steel for great durability and hygiene which ensures it meet all rules and standards for food processing.
- ZENYER 501A egg breaker is designed for breaking eggs and separating egg yolks, egg whites and egg shells with a capacity of 3,000 eggs/hour.
- ZENYER 501A egg breaker is comprised of a feeding conveyor, egg breaking station with 5 robotic arms equipped with special knives, and an egg yolk & white sepatating trough.
- Workers need to only place the eggs onto the feeding conveyor, the conveyor sends eggs to the robotic arms, the arms will catch any rolling eggs and cut the shell with the knives.
- The full egg liquids will flow into the trough where the egg whites will be separated from the egg yolks.
- Has a compact structure and requires less storage space and is equipped with 5 lockable caster wheels on the bottom to allow for easier and more controllable movement.

Product code	501A
Model	SM3000
Capacity	3,000 eggs/hour
Power	90W, 50HZ
Voltage*	220-240V, Single phase
Dimension (L*W*H)	1.38*0.85*1.18M
Net weight	120KG
Gross weight	200KG
Function	Egg breaking, egg yolk separating from egg white.
