

201A EGG WASHER

Option:

Features

- ◆ Made of strong stainless steel for great durability and hygiene.
- ◆ Includes single roller conveyor, sanitizer sprayer, washing and drying functions, as well as an optional accumulator, optional vacuum egg lifter, optional single row candler and optional egg printer. The machine has a capacity of 5,000 eggs/hour.
- ◆ Eggs can be vacuum lifted and loaded onto the 604AS Accumulator using the 602 vacuum egg lifter, and then the accumulator will transport eggs to the single row egg washing machine.
- ◆ The amount of manual labour needed for egg loading can be reduced by half if the accumulator and vacuum egg lifter are used together with the machine.
- ◆ The proportional doser sprays sanitizer or detergent (customer provides chemicals) onto the eggs automatically for food security purposes.
- ◆ The eggs will be cleaned by brushes and warm water (the price does not include a water heater, consult our representatives if needed).
- ◆ Water on the eggs will be swept off by the drying brushes while the eggs themselves are dried by the drying fan system, the drying rate can reach up to 95-99%, depending on the environment humidity.
- ◆ Connect with the ZENYER 102A/102B egg grader and the 604A accumulator to assemble a ZENYER 301A egg processing line with a capacity of 5,000 eggs/hour.

Model	ZYX-JS1-2-(P)
Product code	201A
Capacity	5,000eggs/hour
Power	7.9KW,50HZ
Voltage*	380V-415V,3-phase
Dimension (L*W*H)	8.1*1.25*1.55M
Net weight	590 kg
Gross weight	840 kg
Function	Single roller conveyor, sanitizer sprayer, washing, drying, optional accumulator, vacuum egg lifter, candling, printer and manual collection conveyor.
