

102BS EGG GRADER

◆ Constructed from high quality stainless steel for great durability and hygiene.

◆ ZENYER 102BS egg grader is a combination of the 102B egg grader, the 604A accumulator, the optional 602 vacuum egg lifter and the optional 403H egg printer.

◆ Allows the user to check for any cracked, dirty or otherwise unqualified eggs through LED lights and pick them out manually. The candling booth includes a candling cover and mirror to improve the candling results.

◆ Through the accumulator, eggs are divided into 3 lines and transferred into the feeding roller of the grader automatically.

◆ Has different egg grader models with the egg feeding roller on either the left or the right hand side depending on customer preference.

◆ Can also be combined with the ZENYER 201A egg washer to assemble the ZENYER 301A egg processing line with a capacity of 5,000 eggs/hour.
