

302AS EGG PROCESSING LINE

Option:

Features

- ◆ Made of stainless steel for better durability, corrosion resistance and hygiene.
- ◆ The ZENYER 302AS egg processing line is comprised of the 605A accumulator, the 202A egg washer main machine and the 104B egg grader main machine with a capacity of 10,000 eggs/hour.
- ◆ Includes egg accumulating & candling, sanitizer spraying, washing, drying, grading & counting, manual collection functions. It can also come with the optional 602 vacuum egg lifter, 401H egg printer and UV sterilizing.
- ◆ The Zenyer 605A accumulator has a candling booth on it, you can check for any cracked, dirty or otherwise unqualified eggs through the LED light by sight, and manually take them out. There is also a candling cover and a mirror to improve candling results.
- ◆ The 202A egg washer main machine is equipped with a free standing control panel, the 104B egg grader main machine has a color touchscreen control panel. They are interlock controlled with each other for safety reasons.
- ◆ This model of egg washer can satisfy any egg cleaning and drying requirements very well.
- ◆ This model of egg grader sorts 6 sizes of eggs with an accuracy of within ±1 gram.
- ◆ It has a manual collection table. The graded eggs flow to different channels on the table where you can collect the eggs and pack them into egg trays/carton manually.
- ◆ Can be connected to a rod conveyor connecting to a chicken shed.

Model	ZYL-JS1-D1-C
Product code	302AS
Capacity	10,000 eggs/hour
Power	11.57KW
Voltage*	380V, 50HZ, 3-phase
Dimension (L*W*H)	11.55*3.9 *2 M
Net weight	1550 kg
Gross weight	2240 kg
Function	Accumulator, candling, egg washing, drying, grading & counting, manual collection table and optional vacuum egg lifter and egg printer.
